Bloomsday #19—May 7, 1995

The *Fit For Bloomsday* youth running program reports that over 6,000 children and 60 schools are now participating. Bloomsday entry fee rises to \$8.00, the first increase since 1990. 59,100 sign up and 54,154 finish, including a record number of wheelchair racers (62). For the first time, Bloomsday officials use cellular phones on race weekend to stay in touch and coordinate activities. Light rain at the start doesn't seem to deter the elite competitors, as Delillah Asiago becomes the first Kenyan woman to win Bloomsday and Josphat Machuka is the first male to win back-to-back titles. Both set Bloomsday records that will remain unbroken through the 30<sup>th</sup> year. Paul Wiggins is the first wheeler to beat Craig Blanchette at Bloomsday as he shatters the course record with a time of 25:28. Jean Driscoll wins her seventh title, but much of the women's wheelchair attention focuses on the third-place finisher, 12-year-old LeAnn Shannon of Orange Park, Florida. Shannon was paralyzed in a car accident as an infant and has been racing since she was 7 years old.
